

THE FREESTYLE LIBRE SYSTEM

To scan your sensor you need

FreeStyle Libre sensor **FreeStyle LibreLink app** **FreeStyle Libre reader**

Order sensors at your local NDSS Pharmacy†

Download the free app or order a complimentary reader at www.ScanMySensor.com.au†

†for eligible NDSS registrants

If you have any questions or require support with the FreeStyle Libre system, please call FreeStyle Libre Customer Care on:

1800 801 478

This product is indicated for measuring interstitial fluid glucose levels in people (age 4 and older) with insulin-requiring diabetes.

*Scanning the sensor to obtain glucose values does not require lancets. A finger prick test using a blood glucose meter is required during times of rapidly changing glucose levels when interstitial fluid glucose levels may not accurately reflect blood glucose levels or if hypoglycaemia or impending hypoglycaemia is reported by the System or when symptoms do not match the System readings.

1. The FreeStyle LibreLink app and the FreeStyle Libre reader have similar but not identical features. 2. The FreeStyle LibreLink app is compatible with NFC enabled phones running Android 5.0 or higher, or with iPhone 7 or higher, running iOS 11 or higher.

ACCESSING THE NDSS SUBSIDY

STEP 1

An authorised healthcare professional will assess your eligibility, complete and submit the NDSS form for NDSS approval.

Once the NDSS confirms your eligibility, you and/or your healthcare professional will be directly informed by the NDSS

.....▼.....

STEP 2

Once the NDSS confirms your eligibility, you will need a device to scan your sensor.

Go to www.ScanMySensor.com.au to:

- Download the free FreeStyle LibreLink app onto your smartphone^{1,2} to scan your sensor and/or;
- Order a complimentary FreeStyle Libre reader to scan your sensor
- Access support and instructions on how to get started with FreeStyle Libre

.....▼.....

STEP 3

Once the NDSS confirms your eligibility, contact your local NDSS pharmacy to order and collect your FreeStyle Libre sensors

HELPFUL HINTS

If you have not received contact from the NDSS about your subsidy eligibility, please contact the **NDSS on 1300 136 588** to check the status of your application

Remember to allow time for your NDSS pharmacy to order your sensors in for you and discuss regular ordering arrangements with your local NDSS pharmacy

Use the FreeStyle LibreLink app^{1,2} (free to download) to scan your sensor and wirelessly share your glucose results with your healthcare professional and anyone you like

The NDSS recommends ordering one month's supply of sensors per order (2 sensors). Discuss with your local NDSS pharmacy if you need more

Remember to book your next appointment with your healthcare professional to share your FreeStyle Libre experience

Once your eligibility is confirmed by the NDSS:
